FOOT TYPE A

We fondly refer to this foot-type as our "chandelier shakers"! Why? Because even people with this foot-type who are very petite and don't weigh much tend to sound very 'heavy' on their feet when walking and probably can't sneak up on anyone easily.

FOOT TYPE B

The key characteristic of people with this foot type is that they tend to walk with a toe-in gait, which is commonly referred to as being “pigeon-toed”.

FOOT TYPE B

FOOT TYPE C

We call people with this foot type the “John Wayne walkers. People with this foot-type walk very toe-out. Picture how a gunslinger from an old western movie made his entrance into the local saloon. If you're not a fan of the westerns, think of a penguin or a duck!

FOOT TYPE D

We affectionately refer to people with this foot-type as the “Fred Flintstone walkers” because they tend to have a flat plodding type gait that is neither toe-in or toe-out.

FOOT TYPE E

We affectionately refer to people with the **E foot-Type** as “runway models” because they have a swagger in their gait style. Sometime people with this foot type have difficulty walking in a straight line and if you’re walking next to them down a supermarket aisle they tend to keep walking into you!

FOOT TYPE E

FOOT TYPE F

These feet look "very flat" at an early age, and can only worsen into adulthood. This severe instability also makes it difficult to develop and maintain core strength throughout the legs and trunk.

QUADRASTEP SYSTEM®

All of our orthotics are available in regular or narrow width, with or without a topcover.

Narrow Orthotics

- Fit better in dress shoes
- Fit better in cleats
- Fit better for petite individuals

Topcovered Orthotics

- Add comfort and cushioning
- Keep orthotics from moving
- Extra shock-absorption

QUADRASTE[®]PS SYSTEM[®]

“I've been amazed at the difference my QUADRASTE[®]PS[®] insoles have made for my quality of life. My chronic heel spurs and aching high arches left me limping off the tennis court after only an hour. Since starting with QUADRASTE[®]PS[®], I can now play two to four hours a week with virtually no pain!” *Tom R*
